

Stonblend GSI gives you striking designs and color options to suit any design standard while providing durable, stain and wear resistant floors. This seamless system is a cost-effective alternative to terrazzo and an ideal solution for pharmaceutical and healthcare facilities, animal laboratories, packaging and R&D areas, plant offices and public areas.

Stonblend® GSI

Proven performance floor that gives you the ability to capitalize on design elements for healthcare, educational, pharmaceutical & correctional facilities.

Stonblend® GSI-G 

Same performance characteristics as GSI with an expanded design component that incorporates recycled glass chips in the floor for a highly stylized floor while also honoring the environment.

Stonblend® HDF

Same great performance as Stonblend GSI with increased compressive strength for heavier loads in pharmaceutical and healthcare environments.

Color matching available with additional lead time, minimum order requirements and a slight premium.

Color reproductions are as accurate as modern photography and quality printing methods can produce. For actual color please request a sample, www.stonhard.com

 Indicates recycled glass in formulation. Ask your Stonhard representative about Stonhard's commitment to a healthier planet.
