

The Stontec product line combines progressive style and a broad range of finishes with a hardworking, dense and stain resistant floor. This product line of flake systems skillfully blends colors and textures for limitless design options.

Stontec® ERF

Decorative epoxy-based system offers wear and stain resistance.

Stontec® UTF

Decorative urethane-based system offers excellent chemical and wear resistance.

Stontec® Xpress

Methyl methacrylate resin-based system has exceptional stain and wear resistance, and offers a rapid installation option.

Stontec® TRF

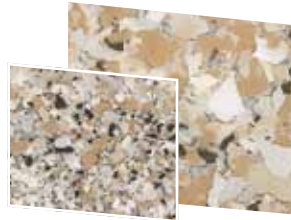

Troweled polyurethane mortar system designed to meet the standards within the pharmaceutical and bio-tech industries for a decorative, durable floor for fast track projects.

Stontec® QBF

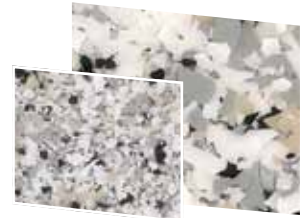

Liquid-based urethane system designed for durability and impact resistance when a quick installation is necessary; ideal for open space commercial projects. (large flake only)

Color matching available with additional lead time, minimum order requirements and a slight premium.

Color reproductions are as accurate as modern photography and quality printing methods can produce. For actual color, see flooring sample.
