<b>Project Title</b>	<b>The Stonhard Single Source Solution</b>
New Production Area	<ul style="list-style-type: none"> <li>➤ Concrete abrasively blast cleaned</li> <li>➤ Stonset TG5 to eradicate floor level changes</li> <li>➤ Stonproof CT5 crack treatment</li> <li>➤ Stonclad GS 6mm mortar</li> <li>➤ Stonkote GS4 epoxy coating</li> <li>➤ Stonflex MP7 joint sealant</li> </ul>
<b>Location</b>	
Kent	
<b>Size</b>	
2100m <sup>2</sup>	
<b>Installation Date</b>	
November 2011	
<b>Products Utilized</b>	
Stonclad GS Stonkote GS4 Silver Grey	

### THE STONHARD DIFFERENCE

Stonhard is the world-leading manufacturer and installer of high performance polymer floor and lining systems designed for tough commercial and industrial environments. We deliver long lasting durable products to satisfy the most demanding design specifications and work with you from start to finish. You are protected with a single source warranty on both product and workmanship. Known around the world for excellence, the Stonhard name is synonymous with quality, performance and unmatched service.

Existing coated floor received "Captive Blast" treatment to remove all traces of existing coatings. Prior to overlayment Stonproof CT5, a 254mm wide glass reinforcing membrane was applied to any cracks to provide strategic strength to the Stonclad system.

Following installation of the Stonclad system, all construction joints were treated with Stonflex MP7. This heat resisting polyurethane sealant will allow for any movement within the expansion/ construction joint within the new production area.

Project completion. Stonclad GS / Stonkote GS4 which included a light textured finish to provide anti-slip characteristics. The structural steelwork is completed with fillet covers to enable easy maintenance.
