### **Stonhard (UK) launches new website to kick off its 25th anniversary celebrations**

Stonhard UK, the world's largest manufacturer and installer of high-quality epoxy and resin seamless flooring, has launched its new website in conjunction with its 25th anniversary celebrations. The website, which went live in December 2016, is intuitive and easy-to-navigate, providing Specifiers, Facilities Managers, Architects and Designers with all the information they will need when upgrading their or their clients' existing flooring or investing in a new floor.

The website, available from [www.stonhard.co.uk](http://www.stonhard.co.uk), incorporates:

- Product finder to help web visitors quickly specify the right epoxy and resin flooring for their work place conditions
- Product specifications, technical details and architectural drawings
- Colour charts and ability to easily request samples online
- Images and case studies demonstrating how other clients within a particular industry sector benefited from the installation of Stonhard's floors

### **Complimentary Comprehensive Flooring Assessment**

Stonhard UK also offers a complimentary flooring assessment, which can now be easily booked online. Stonhard's comprehensive five-page long site survey, prepared by highly

trained project engineers, assesses all aspects of floor and provides crucial information to help businesses to decide whether:

- Should they consider anti-slip flooring as a way of reducing the risk of slips, trips and falls in the workplace?
- Are their floors in good condition, especially in heavy traffic areas? If not, should high-impact resistant flooring be considered?
- Could they save money on frequent repairs or replacement of flooring material?
- Is their current floor resistant against all the chemicals you may be using?
- Is the surface contaminated by any foreign materials that may cause additional hazards?
- Are there any spills occurring and are they dealt with appropriately?
- Are all hygiene requirements met?

Chris Kealy, Managing Director of Stonhard (UK) Ltd and its sister company StonCor (Ireland) Ltd comments: “It makes me proud to say that throughout the past 25 years, we’ve helped hundreds of businesses across the UK to ensure their flooring is safe and looks great too! As we install over 500,000m<sup>2</sup> of flooring systems each month worldwide, our clients can rest assured that both our products and our workmanship are covered by a single written warranty. I hope our new website will improve the online experience for our clients and prospects across all industries in the UK and Ireland,” concludes Chris Kealy.

### **About Stonhard (UK) Ltd**

Stonhard is the unprecedented leader in the manufacturing and installation of seamless floor, wall and lining systems and has been providing solutions for over 90 years worldwide and 25 years in the UK. For more information please visit [www.stonhard.co.uk](http://www.stonhard.co.uk).
